

**JOIN THE CENTURY OF SOLAR**  
A Year of Virtual Celebration

**([www.swc50.org](http://www.swc50.org))**

**Virtual Celebration Conference**

**Online Booklet**

**Online Museum**

**Special Webinars**

In 1970 solar research pioneers met at the 1<sup>st</sup> ISES Conference in Melbourne Australia.

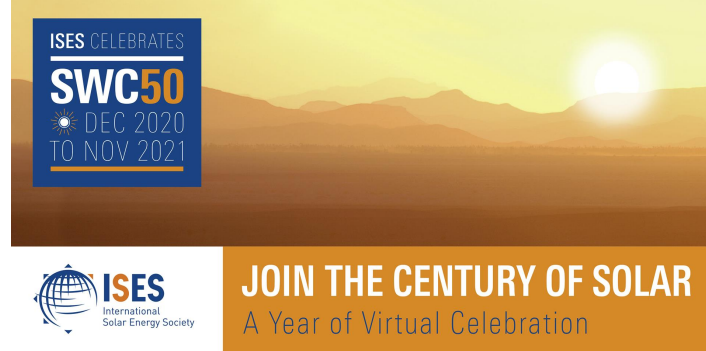

**SWC50 commemorates the anniversary:**

\*ISES SWC50 Two-day looking back – looking forward virtual **Conference** held on 3-4 December. <https://www.ises.org/news/swc50-virtual-success>

\*ISES SWC50 The Century of Solar Stories and Vision **Booklet**  
<https://www.swc50.org/celebratory-booklet>

\*ISES SWC50 Century of Solar **Museum**  
<https://www.swc50.org/ises-solar-energy-museum>

\*Special **Webinars** -- “Transforming the Air, Sea, and Land Freight Transport Sector”.

For over 60 years, members of ISES have undertaken technical research, product development and advocacy for the growth of solar and renewable energy technologies.

SWC50 celebrates what has been achieved over the 50 years since the first international conference, and discusses what must happen over the next 50 years, with particular emphasis on the next 10 years.

**The conference, booklet, museum and special webinars** provide resources to help everyone accelerate the transformation to a 100% renewable energy world.

**SWC50 – The Century of Solar** is made possible by Platinum Partners; 20 organizational supporters; and many contributors who are listed in the booklet and museum.

ISES welcomes contributions, comments, and donations to continue support of the ongoing Booklet and Museum.

***Please contact [swc50@ises.org](mailto:swc50@ises.org) to learn more about these opportunities.***
